PROFESSIONAL SUMMARY

Third-year IT undergraduate with skills in full-stack development, cloud computing, and Python. Familiar with Google Cloud fundamentals, software quality assurance, and cybersecurity basics, and currently self-studying DevOps. A motivated team player seeking a professional internship to apply and grow technical skills.

EDUCATION

BSc(Hons) in Information Technology

2023 - present

Sri Lanka Institute Information Technology (SLIIT)
Undergraduate

G.C.E A/L St.Mary's Collage Kegalle

2019 - 2022

G.C.E O/L Mayurapada Central Collage Mawanella

2017 - 2018

CERTIFICATIONS

- **Certificate in Cloud Computing - Google** 2026
Google Cloud Fundamentals: Core Infrastructure
- **Certificate in Software Quality Assurance- University of Moratuwa** 2026
Introduction to Software Quality Assurance
- **Certificate in Project Management - University of Moratuwa** 2025
Foundations of Project Management
- **Certificate in Cybersecurity - IBM** 2024
Introduction to Cybersecurity Tools & Cyberattacks
- **Certificate in Python - University of Moratuwa** 2025
Programming in Python. Python for Beginners

TECHNICAL SKILLS

- | | | |
|-------------------------|-----------------|----------------|
| • React.js | • Python | • Node.js |
| • Java Script | • Java , C++ ,C | • Express.js |
| • My SQL , MongoDB | • HTML, CSS | • OOP |
| • Software Architecture | • UI/UX, Figma | • XML |
| • Git | • Rest APIs | • Google Cloud |
-

SOFT SKILLS

- | | |
|-------------------|---------------------|
| • Leadership | • Team Work |
| • Problem Solving | • Analytical Skills |
-

KEY PROJECTS & ACHIEVEMENTS

Tourism Management System

[2025 July - 2025 Oct]

Technologies and Tools: MERN Stack (MongoDB, Express.js, React, Node.js), JavaScript, HTML, CSS, Stripe API, Nodemailer, REST APIs, JWT, Git

- Developed a full-stack tourism management platform enabling users to book tours, hotels, guides and vehicles, and create custom travel itineraries with real-time availability checks.
- Engineered secure user authentication (JWT) and integrated the Stripe API for payment processing.
- Applied Agile methodology to design and deploy a responsive web application, integrating multiple third-party APIs for payments, maps, and email notifications.

Online Grocery Ordering System

[2025 Feb - 2025 May]

Technologies and Tools: Java, MySQL, MVC Architecture, JavaScript, HTML, CSS

- Developed a full-stack web application using Java and MVC architecture, enabling customers to browse products, manage carts, and place orders seamlessly.
- Engineered the backend with robust user authentication, real-time inventory checks, and order processing logic, ensuring data integrity and system reliability.

Online Airline Ticket Booking System

[2024 July - 2024 Oct]

Technologies and Tools: PHP, JavaScript, HTML, CSS, MySQL

- Developed a full-stack web application for flight bookings, enabling users to search for flights, check real-time availability, and manage reservations.
- Implemented real-time flight availability checks and booking management system

EXTRA-CURRICULAR ACTIVITY

- Team Member, School Cricket Team
 - Player, School Chess Team
 - Player, School Volleyball Team
